

**Available Report Listing**

Report Name	Report Purpose/Description	Category	View	Pivot Table Description	Chart Description	Grouping	Sorting	Subtotalled by	Totaled by
3rd_Party_tax	Reports on tax for third party billed invoices by separating both by third party account number and tax code of the ship to account. The invoice is taxed based on the ship to account's tax codes, but this report shows that tax grouped by the bill to account code	Accounting	_3rd_party_tax	Shows the total taxable amount and tax amount by third party account and tax code along with a total taxable amount and tax amount by tax code	None	None	Sorted in ascending order by tax code description and third party account code	Third party account and tax code	Total taxable and tax amount by tax code
4-Week-Account-Summary	Shows basic sales and lens count by account for four weeks from a user specified date	Sales	_allens_slis	Shows total dollars and lenses by account for jobs mailed out on a user specified week. There are four Pivot Tables: one for each of four weeks	None	Account	Sorted in ascending order by Account #	Account number	Sales, lenses per week
Account_Balances	Report of all accounts with open balances as of the last month end update. Shows current balance, 30 day balance, 60 day balance and 90 day balance, and total balance (sum of previous four balances). Only shows accounts with more than \$0 in one of these fields.	Accounting	acct_balance	Report of all accounts with open balances as of last month end update	None	Account	Account #	None	Acct #, total current balance, 30 day balance, 60 day balance, 90 day balance, and total balance
Account_Balances_120	Report of all accounts with open balances as of the last month end update. Shows current balance, 30 day balance, 60 day balance, 90 day balance, 120 day balance, and total balance (sum of previous five balances). Only shows accounts with more than \$0 in one of these fields. Only available for Linux systems with 120 balance Accounts Receivables capabilities.	Accounting	acct_bal_120	Report of all accounts with open balances as of last month end update	None	Account	Account #	None	Acct #, total current balance, 30 day balance, 60 day balance, 90 day balance, 120 day balance, and total balance
Account_Lens_Sales	Includes account sales information from database. Including: Account number, Account name, Sales Rep, Territory, Style, AR type, lens count and whether it's vsp or regular billing	Sales	AntiReflective, z_vsp_records, _acct_lens_sales	Reports Sales Per account and Territory rep, split on VSP and Non-VSP sales for lens count, AR type and style.	None	None		VSP/NonVSP, account number and name and the Sales rep	Lens count
Account Monthly Totals	View Invoice Totals for previous months by Account.	Accounting	acct_month_totals	None	None	None	Account #, Year, Month	None	None
Accounts_Query	Supplies the Optifacts system's account information: all accounts, all accounts by state (acstate), all accounts by territory (tecode), all accounts by ship to state (shstate), and all ship to addresses by account (accode) as entered by the user.	Account Data	Acct_contact	Shows the number of accounts by state and territory (based on all accounts)	Shows the number of accounts by state and territory (based on all accounts)	None	[AllAccounts] : account number; [StateOnlyAccts] :territory code, account number, state; [TerritoryOnlyAccts] : account number, state; [StateShipAddresses] : account code, branch code, ship to code; [AcctShipAddresses] : branch code, ship to state	None	acstate and tecode
Acct_sales_report	Report on Account Sales based on a specified date range. Data is Displayed for top 10 account sales for the specified date range on the [Top 10 Accounts] tab, and sales on all accounts for the specified date range on the [All Accounts] tab.	Sales	acct_sales_view	Reports on Account Sales.	None	Account, Sales Year, Sales Month.	[Top 10 Accounts] data is sorted in ascending order by sales. [All Accounts] data is sorted in ascending order by account.	Month and Year	Account, Year, and Grand Total of All Accounts.
Aging_Unapplied_Credit	Shows the aging of unapplied credit for open item accounts	Accounts	_unapp_credit_now, unapp_credit_then	None	None	None	Account Number	30, 60, and 90+ day brackets	Total unapplied credits/payment balance by open item account
Avail_pr_opts_report	Report listing Available Pricing Options (lite-ups from your lite up screen) Includes both the display lite-up number and the lite-up (num) and lite-up (bit)	Pricing	avail_pr_opts	Lists just the Available Pricing Options with their corresponding lite-up number and lite-up (num) and lite-up (bit). It also shows what category it is itemized under.	None	None	Is sorted by itemize_under, credit_text	None	None
Branch_sales_report	Branch Sales data.	Sales	_br_sales_view	Shows either the top 5 by sales or all branch sales	None	Company code, Branch code	Sorted ascending by Sales Totals	Company, Branch	Branch
Company_sales_report	Company Sales data	Sales	_co_sales_view	Shows either the top 5 by sales or all company sales	None	Company code	Sorted ascending by Sales Totals	Company	Company
Custom_Configuration_Entries	Shows all of the Custom Configuration entries for your site in a sortable spreadsheet	Misc	_custom_cfg	None	None	None	Sorted by Program, Field Name and Enabled	None	None

**Available Report Listing**

Report Name	Report Purpose/Description	Category	View	Pivot Table Description	Chart Description	Grouping	Sorting	Subtotalled by	Totaled by
Daily Acct Summary	Report showing a quick summary of the sales dollars and lens count by account for jobs that were mailed out on a user specified date.	Sales	allens_sls	Shows total dollars and lenses by account for jobs mailed out on a user specified date.	None	Account	Sorted in ascending order by Account #	Account number	Sales, lenses
Daily Jobs In Summary	Shows a quick summary of the sales dollars and job count by account for jobs that were entered in on a user specified date	Sales	jobs_in	Shows total dollars and jobs by account for jobs entered in on a user specified date. Also includes the ability to "drill down" and obtain more specific job, material, style, color, etc data. Includes all fields from the _jobs_in view allowing the user to customize what the report is based on	None	None	Account #	Sales dollars and jobs	Account
Days Per Job	Shows, for a specific date range, how many days it took for all jobs, AR jobs, and non-AR jobs to go through the lab	Production	areflect_jobnum, days_per_job	There are three Pivot Tables: one that shows by lab supplied or not the number of jobs that took so many days; one that shows by lite up and lab supplied or not the number of AR jobs that took so many days; one that shows by lab supplied or not the number of non-AR jobs that took so many days	None	None	None	Number of days, lab supplied, liteup	Number of days, lab supplied, liteup
Gross Margin	Report that shows for a specified time period, by account, the Progressive sales, RX sales, Stock sales, Discounts, Net Sales (RX Sales + Stock Sales - Discounts), Costs and Cost % of Net, Breakage and Breakage % of Net, Credits and Credit % of Net, Warranty and Warranty % of Net, and the Percent of Material Cost ((Costs + Breakage + Credits + Warranty) / Net)	Sales	_gross_margin, gr_mgn_rx	None	None	None	In ascending order by Account Number	None	None
Group Sales Totals	Listing of lite-ups associated with a specified group and the cost/price for those lite-ups.	Sales	liteup_totalsales	Shows the totals by Account for the specified group of lite-ups	None	Account, Report ID	Sorted in ascending order by Account #	None	Account:sales amount summed for specified group of lite-ups
Inventory Usage	A customizable report that shows the usage data for lens inventory over a 13 month period	Inventory	Invt_LensInfo	Initially shows the inventory usage since the last Inventory Month End Update based on lens material and style. Many view fields are included to help allow the user to customize the report for specific reporting requirements: manufacturer, color, specific months, etc	None	None	All fields	All fields	Total quantity used and cost
Inventory Usage Transactions by Month	Shows, for a user entered month, the quantity and cost of lenses used (marked as a U for Usage) in a customizable format	Inventory	invt_trans	Shows Manufacturer code, Style, Seg size, Type code and description and split out by material for the quantity used and the cost. All fields in the _invt_trans view are included so that the user can manipulate the PivotTable to show more or less details.	None	None	mfr, style, material, color	None	None
InventoryValuation	Mimics the Inventory Valuation Report from within the Optifacts Inventory menu. Will show quantity on hand, cost and total cost of lenses for the description OR bins chosen	Inventory	sku_invent_view	None	None	None	mfr, style, material, color	None	None

**Available Report Listing**

Report Name	Report Purpose/Description	Category	View	Pivot Table Description	Chart Description	Grouping	Sorting	Subtotaled by	Totaled by
Invoice Details	Lists details of invoices for a user specified date range. Includes: Invoice number, Enter date, ship date, Job type, lens type, PAL manufact, Pal name, lens material, lens color, Drill mount (Y/N), AR coating, polarized (Y/N), number of breakages, Tinted (Y/N), Redo type (if any), ECP name, ECP phone, ECP address, ECP city, ECP state, ECP zip	sales	_DrillMounts _Redos _Brk_cnt _Invoice_Details _AntiReflective	None	None	None	None	None	None
Invoice Report	PivotTable by user defined account type (in Group Account Table), dateout, and account number (accode) that shows invoice totals by credit, rx job or stock job descriptions. Must have version 6.0.2b or greater in order to report by account groups.	Accounting	inv_view	Shows invoice totals by credit, rx job or stock job descriptions, split out by account, date out and account type.	None	Account Group or OTHER ACCOUNTS	Sorted in ascending order by dateout and account number.	Account number, dateout, Account type, and description.	Account type, Description, and total of all the above.
Invoice Tax Report	Listing of all Stock and RX invoices (not invoices added through add transactions) along with ship-to information to be used for tax purposes	Accounting	_inv_archive_view, inv_stk_arch_view	None	None	None	None	None	None
Invoice Register	Can be used for RedTray reporting. Gives a register of all open invoices for the month for both a single account and for all total accounts	Sales	inv_register_view	None	None	None	Sorted in ascending order by ship_to accode	None	Total invoices for the single account and for all accounts
Invoices per Sales Rep	Gives a summary of all activated invoices within a period by territory and account separated by type of invoice: RX JOB, CREDIT, and STOCK JOB. Includes the ability to "drill down" to see specific details for each invoice depending on the user's selection.	Accounting	inv_view, acct terr	Ability to choose which Territory codes to show, specific and all. Shows Territory name, account numbers and names, and then shows the number of invoices and total invoice amounts by the three categories of CREDIT, RX JOB and STOCK JOB.	None	None	Sorted in ascending order by territory code and account number.	Account and Territory	Invoice Category, total number of invoices and total invoice amount
Job Color Sales Count by Acct	Shows a count of jobs for one account by color grouping for a two month time period (compare one month against the previous month) along with percent of total lens sales for that account. Allows customization of the color grouping by the user.	Sales	allens sls cnt	Shows color group, color code, along with the number of jobs per color split out between the user entered month and the previous month. Also shows the percent of jobs each color accounts for.	None	By customized Color Group	Color Group	Month and Color Type	Total jobs per month
Job LiteUp Sales Count by Acct	A report that can show for a user specified account, date range and report ID, the number of jobs using lite-ups defined in that report ID's report groups. The report is more flexible by allowing the user to specify which report ID they want to use.	Sales	_all_daily_l_cnt, rpt_ids	Shows the total number of jobs for one account that were mailed out in the specified date range by lite-up Report Group, split out by month and year. Also shows the percentage of jobs that had that lite-up versus the other lite-ups in that report group	None	Report Group	Report Group and Month/Year	Month	Total jobs per month
Job Material Sales Count by Acct	Shows a count of jobs for one account by material for a two month time period (compare one month against the previous month) along with percent of total lens sales for that account.	Sales	allens sls cnt	Shows material code and description along with the number of jobs per material split out between the user entered month and the previous month. Also shows the percent of jobs each material accounts for.	None	By material	Material code	Month and Material	Total jobs per month
Job Style Sales Count by Acct	Shows a count of jobs for one account by style grouping for a two month time period (compare one month against the previous month) along with percent of total lens sales for that account. Allows customization of the style grouping by the user.	Sales	allens sls cnt	Shows style group, style type, along with the number of jobs per style split out between the user entered month and the previous month. Also shows the percent of jobs each style accounts for.	None	By customized Style Group	Style Group	Month and Style Type	Total jobs per month
Jobs Shipped	Report shpwng a quick summary of the sales dollars and invoice count by account for jobs mailed out in a user specified date range.	Sales	inv_view	Shows the total dollars and invoices by account for jobs mailed out in a user specified date range. Includes "Drill Down" capabilities to see specific invoice numbers and amounts.	None	None	Account Number	Account Number	Sales and Invoices
Late Jobs report	Shows tray station, tray number, account and the last notes applied to overdue jobs.	Production	late_jobs	None	None	Date In	None	None	None

## Available Report Listing

Report Name	Report Purpose/Description	Category	View	Pivot Table Description	Chart Description	Grouping	Sorting	Subtotaled by	Totaled by
Lens Query	Supplies the Optifacts system's lens, sku, and inventory information based on specific manufacturer, style, seg size and lens type as entered by the user.	Lens Data	Inv_LensInfo	Shows average unit cost by color and material for those specific lenses.	average unit cost by color and	None	Ordered by diameter, material code and color code in ascending order.	None	Material and Color for those specific lenses.
Lenses by Frame Date	Gives a count and percentage of breakages by frame type and date, for a user specified date range.	Production	lens by date	counts and percentage of breakage by date	None	Date in	Sorted ascending by date	Date	Frame type
Lenses by Frame Time	Gives a count and percentage of breakages by frame type and time, for a user specified day.	Production	lens by frame	counts and percentage of breakage by time of day	None	Time in	Sorted ascending by time	Time	Frame type
Net_Account_sales	Report on Account net sales based on a specified date range.	Sales	_acct_netsales_view	Reports on Account net sales.	None	Account, Sales Year, Sales Month.	Data is sorted in ascending order by account.	Month and Year	Account, Year, and Grand Total of All Accounts.
Net_Company_sales	Company Sales data	Sales	_acct_netsales_view	Shows company net sales	None	Company code	Sorted ascending by company code and account	Company	Company
Net_SalesAcct	Report that shows the total net sales by account for a specified month, compared to the same month last year. Also shows the total net sales by account for Year To Date (up to the specific month) compared to the same period last year.	Sales	_acct_netsales_view	None	None	None	Sorted in ascending order by account number	Account	Month and YTD for each year
Net_SalesAcctTerr	Report that shows the total net sales by account for a specified month, compared to the same month last year. Also shows the total net sales by account for Year To Date (up to the specific month) compared to the same period last year. Includes the Territory Code for reference.	Sales	_acct_netsales_view	None	None	None	Sorted in ascending order by territory code and account number	Account	Month and YTD for each year
Net_Sales_Summary_by_Month-State-Territory	Includes a PivotTable that shows the total invoice amounts by territory, state and month for an entire year as entered by the user. This report is the fastest way to get a snapshot of a year's worth of sales information. The user is also able to manipulate the report to add in the account number for more detailed reporting. A PivotChart is also created showing a bar chart of sales by state and territory per month.	Sales	_acct_sales_view, _acct_contact	Shows net invoice totals by state and territory and split out by month. It also has the available option to add in the account number for more detailed reporting.	A bar chart of sales by state and territory, split out by month	None	Sorted in ascending order by month	Territory, state, and month	Month and total sales in the year
No_Charge_Jobs_Rpt	Shows a list of jobs that were "no charge" along with a summary count by account number	Sales	no_chrg_jobs	Shows a count of no charge jobs by account number	None	None	Account Number	None	Account number
OnHand_Skus_\$0_cost	Shows the skus that currently are on hand with a cost of \$0	Inventory	invent_cost	None	None	None	None	None	None
Overdue_WIP_Report	Shows the number of trays for jobs that are overdue in each tray station by days overdue	WIP/Production	wip_view	Groups by Station Master and breaks down into specific tray track stations to show the number of jobs in process that are overdue by days overdue. All view fields are included to help allow the user to customize the report for specific reporting requirements: by account, material, style, uncut, etc	None	Station Master	None	Station Master and Station	Overall total, station total, and days over due
PALs_report	Report that shows all progressive lens sales over a user specified period of time by manufacturer, lens type and account. Does not include RX credits or lenses that are not lab supplied	Sales	lens_sales_cnt	Sums the total lenses sold by mfr, lens type and acct	None	None	Mfr, lens desc and acct are all sorted in ascending order	Manufacturer, Lens Type, Account	Lenses
Pct_of_Jobs_by_Custom_Group	A report that can show, for example, which accounts had, on average, 5 or more jobs per day and the percent of those jobs that are AR coated. It looks at the anal_mst, anal_dtl and rpt_opts tables. For the date range given, it counts the total number of job_numbers in the anal_mst per acct. Then, it also calculates the number of working days and divides the two to get the average number of jobs per working day. It counts the number of jobs that have an entry in the specified rpt_opts group and divides that by the total jobs for that acct, giving the percent of jobs. The report is more flexible by allowing the user to specify which report group they want to use and the minimum number of jobs per day on average.	Sales	_jobs_per_day, _daily_job_cnt, _idjobs_per_day, detail_id, rpt_ids	Shows the average number of jobs per day by account along with the report group's entries' percent of the total jobs.	None	Account, Report ID	None	None	Account's percent of jobs that are in that report group.

**Available Report Listing**

Report Name	Report Purpose/Description	Category	View	Pivot Table Description	Chart Description	Grouping	Sorting	Subtotalled by	Totaled by
Pct of Lenses by Custom Group	A report that can show, for example, which accounts had, on average, 2 or more lenses per day and the percent of those lenses that are AR coated. It looks at the anal_mst, anal_dtl and rpt_opts tables. For the date range given, it counts the total number of lenses that are not lab supplied in the anal_mst per acct. Then, it also calculates the number of working days and divides the two to get the average number of lenses per working day. It counts the number of lenses that have an entry in the specified rpt_opts group and divides that by the total lenses for that acct, giving the percent of lenses. The report is more flexible by allowing the user to specify which report group they want to use and the minimum number of lenses per day on average.	Sales	_lens_per_day, _daily_lens_cnt, _idlens_per_day, detail_id, rpt_ids	Shows the average number of lenses per day by account along with the report group's entries' percent of the total lenses.	None	Account, Report ID	None	None	Account's percent of lenses that are in that report group.
Redo by Acct and Lens.xls	Creates a report showing the # of jobs per account and then the # and margin of redos per redo type and account in a user defined timeframe.	Production	redo_acct, lens_acct	Shows Number of jobs, redos and margin of jobs/redo	NA	Account Number	Account Number	NA	NA
RX_and LiteupGrp_Job_Totals_by_AcctGroup	Report showing the number of RX jobs, RX jobs with a Lite-up Group, and Supplied Lens jobs with a Lite-up Group mailed out in a user-specified date range for a user-specified account group	Sales	_jobsperday_acgrp, _idjobsperday_acg, id_suppl_ipd_acg	Shows total jobs by account for jobs mailed out in a user specified date range. There are three Pivot Tables each showing either RX jobs, RX jobs with a Lite up Group, or Supplied Lens jobs with a Lite-up Group	None	None	Dateout and Account Number	Dateout and Account Number	Total jobs in each category
Sales_Review_by_Account	Report that shows the total purchases by account for a specified month, compared to the same month last year. Also shows the total purchases by account for Year To Date (up to the specific month) compared to the same period last year.	Sales	_acct_sales_view, acct_contact	None	None	None	Sorted in ascending order by account number	Account	Month and YTD for each year
Sales_Review_by_AcctTerr	Report that shows the total purchases by account for a specified month, compared to the same month last year. Also shows the total purchases by account for Year To Date (up to the specific month) compared to the same period last year. Includes the Territory Code for reference.	Sales	_acct_sales_view, acct_contact	None	None	None	Sorted in ascending order by territory code and account number	Account	Month and YTD for each year
Sales_Summary_by_Month-State-Territory	Includes a PivotTable that shows the total invoice amounts by territory, state and month for an entire year as entered by the user. This report is the fastest way to get a snapshot of a year's worth of sales information. The user is also able to manipulate the report to add in the account number for more detailed reporting. A PivotChart is also created showing a bar chart of sales by state and territory per month.	Sales	_acct_sales_view, acct_contact	Shows invoice totals by state and territory and split out by month. It also has the available option to add in the account number for more detailed reporting.	A bar chart of sales by state and territory, split out by month	None	Sorted in ascending order by month	Territory, state, and month	Month and total sales in the year
Shipped_Frames	Shows information about the frames for jobs mailed out within a specified date range.	Frames	_job_frame_info	Shows total frames mailed out by material (METAL, ZYL, RIMLESS, etc)	None	None	Sorted by Frame Material first, then by dateout	Frame Material	Total Frames
Short_Order_Percentage	Report showing the percentage of lenses short ordered in a user specified date range	Inventory	_inv_trans	Shows the number of lenses short ordered and also the number of lenses used or short ordered	None	None	Date	Date	Lenses Used and Short Orders

**Available Report Listing**

Report Name	Report Purpose/Description	Category	View	Pivot Table Description	Chart Description	Grouping	Sorting	Subtotalled by	Totaled by
Station_Liteup_Group_Lenses	Shows the number of lenses (not including any breakages) run through a user entered tray track station for a dateout range and liteup report group. Allows manipulation of the PivotTable to break it down by material, style, manufacturer, and other job details.	Production	_stn_liteup_grp	Groups by rpt_group and liteup text to show number of jobs run through the user entered tray track station. All columns from the _stn_liteup_grp view are included to help allow the user to customize the report for specific reporting requirements: by material, style, manufacturer, uncut, etc	None	Report Group	None	Report group and liteup text	Total lenses through the station
Territory_Monthly_Sales_Challenge	Report that shows by territory the total number of RX jobs, total number of AR jobs entered through Layout, and Gross Sales entered through Layout for a user specified date range	Sales	_jobs_per_day, _acct_terr, _all_idlens_day, _alllens_sls	None	None	None	None	None	RX job count, AR job count, Gross Sales
Territory_Progressive_AR_Sales	Shows the number of lenses and amount of sales for progressive lenses sold by territory	Sales	_acct_terr, _sales_ar	Shows the sales dollar amount and the lenses sold by progressive lens type with antireflective coating and by territory	None	None	None	Territory and Progressive Lens Type	Overall total, territory total, and progressive lens type total
Territory_Progressive_Sales	Shows the number of lenses and amount of sales for progressive lenses sold by territory	Sales	_acct_terr, _sales_lens_sales	Shows the sales dollar amount and the lenses sold by progressive lens type and territory	None	None	None	Territory and Progressive Lens Type	Overall total, territory total, and progressive lens type total
Territory_sales_report	Territory Sales data.	Sales	_terr_sales_view	Shows either the top 10 by sales or all territory sales	None	Territory Name	Sorted ascending by Sales Totals	Territory	Territory
TopSales_with_3month_trend	Report showing by account, for a three month period, the number of RX jobs, average days per job, average jobs per day, percent of breakage (number of breakages divided by number of usages), RX job cost, RX dollars billed, supplied lens dollars billed, RX credits, stock dollars billed and stock dollars credited, and the sum total of RX Billed, Supplied Lens Billed, and Stock Billed minus RX credits and Stock credits	Sales	_acct_sales_view, _acct_contact, _alllens_cost, _alllens_credits, _alllens_sls, _alllens_sls_cnt, _days_per_job, _brkg_per_day, _usg_per_day, _stock_credits, _stock_gross_sls	By account and month, shows RX jobs, jobs per day, percent of breakage, RX cost, RX billed, supplied billed, stock billed, stock credits, and net dollars	None	By account and month	Total Dollars ordered by account, month and year	Account Number	Sales and Lenses
Trans with AR	Shows, for a specific date range, how many transition lenses with AR have been sold	Sales	_antireflective, _trans_ar	Report of all lenses with both transitions and anti-reflective coating by Date, lens style, material, anti-reflective type, and color code	None		All Fields	All Fields	Date, lens style, material, anti-reflective type, and color code
Unpaid_Invoice_Amounts_by_MonthAcct	Shows the sum of unpaid invoice amounts by month and account for open item accounts	Accounts/Receivables	_unpaid_invoice	None	None	None	Year, Month, Account	Account for the Month and Year	None
Volume_By_Breakage_Station	Shows the volume of jobs by tray track breakage station for a given time period. Allows manipulation of the PivotTable to break it down by material, style, manufacturer, and other job details. Includes a [Detail] tab to see more specific lens information	WIP/Production	_brkg_stn_dtl	Groups by Station Master and breaks down into specific tray track stations to show the number of jobs per station per month. All columns from the [Detail] spreadsheet are included to help allow the user to customize the report for specific reporting requirements: by material, style, manufacturer, uncut, etc	None	Station Master	Station Master	Station, material and month	Station, material and month

**Available Report Listing**

Report Name	Report Purpose/Description	Category	View	Pivot Table Description	Chart Description	Grouping	Sorting	Subtotalled by	Totaled by
Volume_by_Interface_Station	Shows the volume of jobs sent to equipment by tray track station for a given time period. Allows manipulation of the PivotTable to break it down by material, style, manufacturer, and other job details. Includes a [Detail] tab to see more specific lens information	WIP/Production	_interface_stns	Groups by Station Master code and breaks down into specific tray track stations to show the number of jobs per station per day. All columns from the [Detail] spreadsheet are included to help allow the user to customize the report for specific reporting requirements: by material, style, manufacturer, uncut, etc	None	Station Master code	None	Station and date	Total, Station, and Date
VSP_Lens_Report	Report showing VSP sales within a user-defined date range. VSP sales are broken out on a PivotTable by AR coating, account, and lens style with columns for both dollars and lenses.	Sales	z_analysis_ar_view, z_vsp_link_view, analysis_tot view	Shows total VSP sales in both dollars and lenses by AR coating and by Account and lens style (SV, BTF (Bi/Tri Focal) or specific progressive lens type description)	None	Account, Lens Style, and AR Coating	Sorted in ascending order by Account # and AR Coating	Account number, lens style, AR coating sales, AR coating lenses	Account number, AR Coating sales, AR Coating lenses
Warranty_LiteUp_Report	A report that can show on Warranty jobs which manufacturer, material, and lite-up were used on how many lenses. User can specify which custom report group of lite-ups (example: AR Coatings) they want to show	Misc	detail_id_warr_jobs	Shows the manufacturer, material, and lite-up along with lens counts for Warranty jobs.	None	None	None	Manufacturer, Material, and Liteup	Manufacturer and Liteup
Weekly_Acct_Comparison	Report showing a quick summary of the sales dollars and lens count by account for jobs that were mailed out in a user specified week with comparison to the previous week	Sales	allens_sls	Shows total dollars and lenses by account for jobs mailed out in a user specified week. A second Pivot Table shows the same for the previous week.	None	Account	Sorted in ascending order by Account #	Account number	Sales, lenses
Weekly_Jobs_in_Summary	Shows a quick summary of the sales dollars and job count by account for jobs that were entered within a user specified week	Sales	jobs_in	Shows total dollars and jobs by account for jobs entered within a user specified week. Also includes the ability to "drill down" and obtain more specific job, material, style, color, etc data. Includes all fields from the _jobs_in view allowing the user to customize what the report is based on	None	None	None	Jobs and Invoices per Account per day	Jobs and Invoices per Account per Week. Also, total Jobs and Invoices by day and for the week
Weekly-Monthly_GrpAcct_GrpType_jobs	Report showing, both by week and by month the number of jobs in up to two style groups mailed out by account in an account group	Sales	jpd_stgrp_acgrp	There are two Pivot Tables: one that shows by week number and another that shows by month the number of RX jobs mailed out by account and by style group	None	None	Account Number, Week Number, and Month	Account Number, Style Group and Month	Lenses by style group
WIP_cost	Shows for "Work in Process" jobs, the job number, last updated date, manufacturer, style, material, type code, sku and lens unit cost. This is helpful when determining inventory costs for lenses that are not sent out to the customer yet but have left the shelves and are no longer in inventory	WIP/Production	wip_cost	None	None	None	Last Updated date	None	None
